Flexible Undersink Drip Tray

Are you worried about water leaks damaging your cabinets?

Let us put your mind at rest with Flexible Drip Trays. These flexible trays are your first line of defense against water damage in your under sink cabinets.

They are easy to clean, resistant to most household chemicals, and trimmable with scissors for easy customization. These drip trays protect the bottom of your kitchen cabinet first by holding water, then funneling excess water onto the floor in front of your cabinet, alerting you to the leak.
